

Dash Cam D310

Full HD Eyewitness

Whether it's recording those iconic spots along your scenic travels or capturing unexpected moments like the inevitable traffic incidents, D310 is not only the Full HD resolution, but with 145 ° wide viewing angle, you'll never miss out on any of the details.

Full 1080P HD Recording at 30fps

Capture everything that happens on your device in crystal clear HD.

Built-in Microphone & Speaker

Capture high quality audio without distortion. Don't want to record voice? Use App to manage feature on and off.

Wi-Fi Transfer and Social Sharing

Easily transfer videos from camera to your phone without the hassle of taking the camera back home. Share your driving footage with your friends or social media instantly.

Advance HDR & Night Vision

Unique High Dynamic Range (HDR) video system for superior low light compensation, automatic day/night light adjustment assuring the best picture quality regardless of lighting conditions.

Live Stream

Built-in WiFi and OTCam360 App (on Google or App store), you can access the live stream, playback, download recording as well as change setting via your iPhone/Android.
